B. You cannot cross or change divisions once you are entered into a division; the app does not allow it.

C. In the Panfish division, bluegill, sunfish, crappie, rock bass or perch in any combination may be entered. The top five fish will count towards total score.

D. In the Bass division, the top five bass will count. Largemouth and smallmouth bass qualify for entry.

E. The top five northern pike will be entered.

F. The top five walleyes will be entered.

G. You may enter additional fish into the app, but only the top five will count towards your score.

H. There are no minimum or maximum length limits. Any fish that are not within the legal length set by state game departments must be returned to the water immediately following measuring and photographing.

I. Anglers must be within cell phone service in time to enter fish BEFORE 3:00p.m. local time. The app automatically shuts off entries at 3:00p.m. local time.

J. All fish must be photographed on the 40" official tournament ruler with the app's camera. The photo you take of your fish on the ruler must be sent through the app to qualify. Place the fish on the ruler and take a photo of the entire fish showing both head and tail. Photos are time and date stamped within the app.

K. Only the official tournament ruler provided to you is to be used. Place the ruler against a vertical barrier and put the fish's head up against the barrier. The jaw must be touching the barrier.

L. Fish are measured with the mouth closed and tail pinched. Measure to ¼-inch. The tail must touch or cross the line. All entries will be verified by our team during the day as they are submitted.

M. Tournament hours are 7:00a.m. to 3:00p.m. in the time zone you are fishing. Alaskan anglers will fish in the Pacific Time Zone. No fish entered outside those hours will be accepted.
